PROFESSIONAL SUMMARY

Full-stack developer with expertise in MERN and AI/ML systems, building scalable web applications integrated with machine learning and LLMs. Experienced in developing end-to-end solutions including REST APIs, real-time systems, predictive models, and RAG-based applications with embeddings and vector search.

EDUCATION

Bachelor of Technology (AI ML) 2024 - 2025
Newton School Of Technology (ADYPU, Pune) Grade: 7.78/10.0

Intermediate (Class XII) 2022 - 2023
Satyakaam international school Grade: 78.8%

Matriculation (Class X) 2020 - 2021
Satyakaam international school Grade: 87.2%

PROJECTS

Intelligent Property Price Prediction ([Github](#)) ([Demo](#)) April 2026

- Designed and trained machine learning models for **property price prediction**, optimizing feature selection and improving prediction accuracy.
- Built an **end-to-end ML pipeline** including data preprocessing, model training, evaluation, and real-time inference via FastAPI APIs.
- Integrated **LLM (Llama 3 via Groq)** with a **RAG-based system** to generate contextual real estate insights and recommendations.
- Deployed production-ready ML services with scalable APIs, enabling seamless integration with frontend applications.

Smart Interview Simulator (SIS) ([Github](#)) ([Demo](#)) January 2026

- **Built** a full-stack interview simulation platform using **React, Node.js, Express, and PostgreSQL**.
- **Implemented** secure authentication with **JWT, Google OAuth, and RBAC**.
- **Integrated** real-time communication features using **Socket.IO** for live interactions.
- **Developed** AI-powered feedback and analytics dashboards using **Gemini AI and Recharts**.

Library Lite - MERN Stack Library Management System ([Github](#)) ([Demo](#)) December 2025

- **Designed MongoDB Schemas** for books, users, and transactions, ensuring **Data Consistency** across operations.
- **Built** secure **REST APIs** with **Role-Based Access Control (RBAC)** to prevent unauthorized actions.
- **Optimized Data Retrieval** using **Indexed Search Fields** and **Pagination** for large collections.

CERTIFICATIONS

Generative AI for Everyone (Andrew Ng) Coursera ([Link](#)) April 2025

- Practical understanding of **LLMs**, generative **AI workflows**, and real-world applications.

SKILLS

AI / ML: GenAI, LLM, Generative AI

APIs & Testing: Jest, Postman, API testing, OAuth 2.0, API

Cloud & DevOps: Git and Github, Docker, GitHub Actions, Docker Compose

Computer Languages: TypeScript, HTML, CSS, JavaScript, Python, SQL

Courses: Data Structure

Databases & Data Tools: PostgreSQL, MySQL, MongoDB

Frameworks & Libraries: Pandas, Matplotlib, Next.js, Tailwind CSS, React Native, Prisma ORM, NumPy, React, Node.js, Express JS
